RESEARCH INTERESTS

- *Management Accounting*
- *Management Control*
- *Cost Accounting*
- *Performance measurement*
- *Efficiency*

My research interest is the use by firms of the tools of Management Control (MC) and Management Accounting (MA) in order to study the effects in terms of organization, performance/efficiency, and strategy. Also I am interested to study how management controls operate together as a package of interrelated mechanisms; the existence and consistency of different packages of (MCS), according to the context; how multiple accounting and other control mechanisms commonly combine and the associations these combinations have with firm context.
